

## NEYM Transforming Love Calculator Project Toolkit

As a Friend of God, what are the ways you are already demonstrating God's Love for all Beings on Earth that creates that redemptive, regenerative energy that builds more capacity for transformational change? This is not a competition to see who has the most ways. This is an opportunity for you to reflect on the many ways you are already being or doing that create the capacity for transformational change. Please remember, ways of being (e.g.- reflective, kind, patient, joyful) are at least as important as ways of doing, if not more important.

We love our Earth and those we share it with, especially those Beings who are already threatened by the effects of our high-carbon lifestyle. How can we express our love with actions that transform the risk away from those we love? Turn to the other side of this page for an activity that can help.

What are the actions you have chosen to do to reduce your carbon footprint on the “53 Actions You Could Take To Reduce Your Carbon Footprint” or the “Additional Actions...” page of the carbon calculator?

Actions to Further Reduce My Carbon Footprint	Projected Carbon Associated With This Action in Tons ( see “53 Actions...” chart for tonnage estimates)

Of the many actions of the Transforming Love Calculator Project, pick several new ways you are committing to continue your legacy of creating transformational change through loving actions, and when will you commit to doing so?

What and When	What could prevent this? How can you overcome that?

Dear Friends,

In light of our global crisis, the Earthcare Ministry Committee TLC Project Team thanks each of you for looking at the impact your actions have on Earth's bio-sphere, and thus all Earth's Beings. Your thoughtful reflection and actions make a real difference, as noted here:

I would encourage people to look around them in their community and find an organization that is doing something that they believe in, even if that organization has only five people, or ten people, or twenty people, or a hundred people. And to look at history and understand that when change takes place it takes place as a result of large, large numbers of people doing little things unbeknownst to one another. And that history is very important for people to not get discouraged... History is instructive. And what it suggests to people is that even if they do little things, if they walk on the picket line, if they join a vigil, if they write a letter to their local newspaper. Anything they do, however small, becomes part of a much, much larger sort of flow of energy. And when enough people do enough things, however small they are, then change takes place.

– Howard Zinn, historian, playwright and social activist.

Thank you for participating in the TLC Project, whose roots were established in the call of the Spirit. We look forward to hearing about your insights regarding this Project, especially the spiritually transformative nature of what you are discovering. We also want to hear the practical, daily changes that are happening as a result of your journey of transformation.

The purpose of one of the programs we offer as the TLC Project Team, the Awakening the Dreamer Symposium of the Pachamama Alliance, is:

To create a human presence on this planet that is environmentally sustainable, spiritually fulfilling and socially just.

We hope you can see the beauty and necessity of this purpose statement and know that you are part of the spiritual movement that is making this statement a reality.

With gratitude for your faithful journey with the Spirit of God's Love for All Beings and Earth,  
Earthcare Ministry Committee TLC Project Team
