

Background Screening by Trusted Employees

The Yearly Meeting process for conducting background screenings has changed (because the service provider changed), so it is no longer necessary to mail forms to the Office.

After the Office receives a request for a background check, the person to be screened will receive a link from the “Trusted Employees” website. (The email you receive will be from “New England Yearly Meeting<administrator@trustedemployees.com”.)

Some Friends have been surprised/confused by what they see when they click the link. There are a few pages of disclosures to acknowledge, some of which are about credit reporting. **The Yearly Meeting is not conducting a credit check!** You can simply check the box at the bottom of each page and continue to the form for you to complete. Your information will be encrypted for transmission.
